In a moment pandemonium seemed to have broken oose, the guns spoke sharply, scimetars flashed in silver and turned crimson, and soon the flames from burning buildings cast their lurid glare over an earthly hell wherein fiends held high carnival in shedding innocent blood. quarto volumes, and which embraces the substance of all the other encyclopædias, besides a very large amount of new up-to-date matter none of them contain. It introduces a vast number of new words, names, facts, ideas, inventions, methods and developments. It treats, in all, over 60,000 topics, which is from 6,000 to 10,000 more than any other work. The publishers of the "Standard American" have also lavishly embellished the new work. 'There are over 3,500 illustrations, which cover every conceivable subject, lending new interest to the descriptions, and forming a succession of pleasing surprises. It also contains over 300 colored mays, charts, and diagrams, and constitutes a complete atlas of the world such as no other encyclopædia has undertaken to present. This feature will be found of the highest value in the education of the young, for the pictures and colored maps will have a distinct fascination for them, and thus prove an important incentive to reading and study.

The professional or business man, whose time is money; the teacher, who is called upon to at once answer all sorts of questions; the toiling student and inquiring scholar, at home or the desk, will find in the new work the most useful and practical library in the world for quick and ready reference on all subjects. One who owns it will possess the equivalent of a score of other reference books which would cost many times the price of this. Another feature in which the new

SEE HOW LATE IT IS!

Just to Introduce the Work

You thus secure this Splendid Reference Library at once for continued use and enjoyment. THE NEW STANDARD AMERICAN ENCYCLOPEDIA is the LATEST OF ALL general reference works. All others are from 5 to 10 years old, and are silent regarding RECENT topics of universal interest. THE "STANDARD AMERICAN" contains hundreds of NEW ARTICLES on subjects not treated in any other encyclopedia, such, for instance, as "THE X RAY," "ARGON," "HORSELESS CARRIAGES," "THE AT-LANTA EXPOSITION," "COLOR PHOTOGRAPHY," etc., etc. It also gives biographies of hundreds of people who have LATELY become famous, such for instance, as PROF. ROENTGEN, discoverer of the "X RAY;" IAN MACLAREN; DR. NANSEN, the explorer; RUDYARD KIPLING, the celebrated writer. Besides this it is the only encyclopedia which presents all the LATEST STATISTICS—State, Territorial, and National, and of the whole world. It is the One Great, Practical Reference Library for the Professional and Business Man, the Teacher, the Student, the Farmer, the Artisan and Mechanic.

Our Great Introductory Offer

To secure widespread and favorable publicity for THE NEW STANDARD AMERICAN ENCYCLOPEDIA, we have decided to place a few introductory sets in each community throughout the country for comparison with all other reference works as to plan, scope, lateness of treatment and general practical and educational value. We feel that every set will create a demand for others. While the distribution will be general in extent, it will last for a limited time only, after which our regular subscription sale will begin, at prices ranging from \$48 to \$72 a set, according to style of binding. Now, however, to quickly and thoroughly introduce the work, as above stated, we make the price merely nominal (about the cost of paper and printing), the distribution being limited to a very few weeks, reserving the privilege of withdrawing the offer at any time when we consider a sufficient number of these introductory sets, at the special price, has been distributed.

Send \$1 to THE ENCYCLOPEDIA PUBLISHING CO., 156 Fifth Avenue, New York City, and a full set of eight volumes of THE NEW STANDARD AMERICAN ENCYCLOPEDIA in cloth binding, will be for-

warded to you at once. The balance is payable at the rate of \$1.50 monthly for one year, or about 5 cents a day. If you prefer the half-Morocco binding, the monthly payment will be \$2, and for full sheep, \$2.50 per month for the year. We recommend the half-Morocco style, which is particularly elegant and serviceable, and will last a lifetime. If not as represented any set may be returned within ten days and money will be promptly refunded. Owing to the nominal price at which these introductory sets are sold, transportation charges must be paid by purchaser. Our confidence that the volumes will be cheerfully paid for is shown by sending a \$48 set of books on payment of only \$1. We also feel that you will thoroughly appreciate the superb new work and speak favorably of it to others. Sample pages, with specimen illustrations, will also be sent on application until the offer is withdrawn. We refer you to the publisher of this newspaper. Always mention name of paper you

see this offer in. Address The ENCYCLOPEDIA PUBLISHING CO., 156 Fifth Avenue, New York, N.Y. このとうとうとうとうとうとうとうとうとうとうとうとう
